

## Research Grant Workshop, panel exercise worksheet.

You will be given a draft of a colleague's grant application. You have 30 minutes to read it and to prepare a 5-minute presentation to a panel of colleagues. The writer of the grant will be a member of the panel. In your presentation you will be expected to explain:-

- what is the question the research proposes to answer
- why it is important,
- whether, and how the project is likely to achieve the research objectives,
- how the results will be disseminated
- how the resources requested will be used

Use the headings below to make notes for your presentation to the panel and to give feedback to your colleague.
